

## **Global Stem Cells Group and Regenestem Launch New State-of-the-art Stem Cell Clinic, Regenestem, Mexico Sur**

*Regenestem has launched a new stem cell treatment facility in Villahermosa Tabasco, Mexico, offering state-of-the-art regenerative medicine therapies to patients from around the world.*

MIAMI ([PRWEB](#)) September 03, 2014 -- [Regenestem](#), a division of the Global Stem Cells Group, Inc., has announced the launch of a new stem cell treatment center in Villahermosa Tabasco, Mexico. The new facility offers the most advanced protocols and techniques in cellular medicine to patients from around the world.

The opening of [Regenestem, Mexico Sur](#) is in partnership with Gilberto Hernandez Falcon, M.D., Director of Regenestem, Mexico. Hernandez Falcon has extensive experience in integrative medicine that combines homeopathy, homotoxicology, ozone and stem cell therapies to treat a range of medical conditions, expertise he will apply to provide cutting edge therapies and follow-up treatment under the Regenestem brand in Mexico.

Under the direction of [Global Stem Cells Group](#), Regenestem is expanding its clinical presence worldwide by partnering with qualified physicians experienced in stem cell therapies to open new clinics, licensed and developed under the Regenestem banner.

In June, Global Stem Cells Group opened the Regenestem Asia Clinic in Manila, Philippines, adding a new state-of-the-art regenerative medicine facility to the company's growing global presence that includes clinics in Miami, New York, Los Angeles, and Dubai. Regenestem Asia facility marks the first Regenestem brand clinic in the Philippines.

Regenestem provides stem cell treatments for a variety of diseases and conditions, including arthritis, autism, chronic obstructive pulmonary disease (COPD), diabetes, and multiple sclerosis at various facilities worldwide. Regenestem Mexico Sur will have an international staff experienced in administering the leading cellular therapies available.

[Regenestem Mexico Sur](#) is certified for the medical tourism market, and staff physicians are board-certified or board-eligible. Regenestem clinics provide services in more than 10 specialties, attracting patients from the United States and around the world.

The Global Stem Cells Group and Regenestem are committed to the highest of standards in service and technology, expert and compassionate care, and a philosophy of exceeding the expectations of their international patients.

About Regenestem:

Regenestem, a division of the Global Stem Cells Group, Inc., is an international medical practice association committed to researching and producing comprehensive stem cell treatments for patients worldwide. Having assembled a highly qualified staff of medical specialists—professionals trained in the latest cutting-edge techniques in cellular medicine—Regenestem continues to be a leader in delivering the latest protocols in the adult stem cell arena.

About the Global Stem Cell Group:

Global Stem Cells Group, Inc. is the parent company of six wholly-owned operating companies dedicated entirely to stem cell research, training, products, and solutions. Founded in 2012, the company combines dedicated researchers, physician and patient educators, and solution providers with the shared goal of meeting the growing worldwide need for leading edge stem cell treatments and solutions. With a singular focus on this exciting new area of medical research, Global Stem Cells Group and its subsidiaries are uniquely positioned to become global leaders in cellular medicine.

Global Stem Cells Group's corporate mission is to make the promise of stem cell medicine a reality for patients around the world. With each of GSCG's six operating companies focused on a separate research-based mission, the result is a global network of state-of-the-art stem cell treatments.
